SUSTAINABLE SOLUTIONS FOR

# WATER. TODAY. TOMORROW.

Smart water management is the key to a sustainable future. Our integrated solutions help you conserve, recycle and recharge for a better tomorrow.

## OUR WATER MANAGEMENT SOLUTIONS

### WATER TREATMENT PLANT

- Ultrafiltration Plant (UF)
- Reverse Osmosis Plant (RO)
- Water Treatment Plant (WTP)
- Water Softening Plant / Water Softeners
- Demineralization Plant (DM)

### WASTE WATER TREATMENT

- Waste water UF & RO
- Sewage Treatment Plant.
- Effluent Treatment Plant.
- Single & multiple effect Evaporators
- Mechanical Vapor Recompression (MVR) Evaporator
- Agitated Thin Film Dryer (ATFD)
- Dissolved Air Flotation (DAF)
- Dewatering Equipment - Filter Press, Screw Press, Decanters, Centrifuge.

### Zero Liquid Discharge

- MEE: Multiple Effect Evaporator
- MVRE: Mechanical Vapour Recompression Evaporator
- ATFD: Agitated Thin Film Dryer & Centrifuge

### GREYWATER RECYCLING

- Greywater Treatment SolutionsReuse for Flushing & Landscaping
- Customized System Design
- Sustainable Water Reuse

### RAINWATER HARVESTING

- Rooftop Rainwater Harvesting
- Groundwater Recharge Systems
- Turnkey Implementation
- Water Security for Future

## WHY CHOOSE US?

enversys
Lets make it a greenverse!

**Compact & Customised STP ETP designs MBBR, MBR, SBR etc**

**Lesser footprints with Underground FRP tanks**

**Smart STPs with Online Parameter displays - PLC & HMI**

**IN Design with Nature**

**Mobile, Portable & Packaged Solutions**

State of Art Manufacturing Facility in Alandi, Markal

BEYOND TREATMENT.

# TOWARDS SUSTAINABILITY.

We deliver innovative and eco-friendly solutions that convert waste into resources and build a cleaner, greener tomorrow.

## OUR SUSTAINABLE SOLUTIONS

### OWC
(Organic Waste Converter)

- Reduces food waste up to 90%
- Produces high-quality manure
- Odorless, hygienic & easy to use
- Ideal for institutions, malls, offices & communities

### VERMICOMPOSTING
Nature's way to better soil.

- Converts organic waste into nutrient-rich compost
- Improves soil health & fertility
- Eco-friendly & natural process
- Suitable for homes, societies, institutions & industries

### BIOGAS PLANT INSTALLATION
Clean energy from organic waste.

- Converts organic waste into clean cooking gas
- Reduces dependency on fossil fuels
- Environment friendly & cost effective
- Ideal for communities, institutions & industries

## WHY THESE SOLUTIONS MATTER

**Reduces Waste**
Minimizes waste going to landfills

**Creates Value**
Turns waste into valuable resources

**Cost Effective**
Low operation & maintenance cost

**Eco Friendly**
Promotes a clean & green environment

**Community Impact**
Builds sustainable & self-reliant communities
